PAPER-1 (COMPULSORY)

TEACHING AND RESEARCH APTITUDE

✓ **Comprehensive Theory**

✓ **3400+ PYQs**

✓ **Detailed Explanations**

✓ **16 Years PYQs**

GENERAL PAPER

[04 SEP 2024 (M)]

Directions (1-5): The following table represents the percentage expenditure of the annual income of six persons A-F on six different items, namely, Food, Rent, Transport, Clothes, Entertainment and Miscellaneous. Based on the data in the table, answer the questions that follow.

Person-wise Expenditure Details

Person	Percentage (%) Expenditure from Annual Income on					
	Food	Rent	Transport	Clothes	Entertainment	Miscellaneous
A	21.80%	15.0%	18.4%	12.5%	13.3%	19.0%
B	17.20%	18.0%	22.6%	15.0%	11.4%	15.8%
C	24.0%	16.3%	14.8%	11.2%	7.8%	25.9%
D	18.0%	19.5%	15.5%	12.0%	16.4%	18.6%
E	20.20%	16.4%	17.5%	14.0%	8.6%	23.3%
F	23.60%	18.5%	16.0%	13.8%	11.0%	17.1%

- If the monthly income of A and D are ₹ 80000 and ₹ 72000, respectively, then the amount of money spent by A on Rent is _____% more than the amount spent by D on clothes.
 - 32.62
 - 38.89
 - 36.54
 - 34.24
- If the annual income of each of the six persons is ₹ 3 lakh, then the amount of money spent on clothes is more than ₹ 41800 by exactly _____ persons.
 - 2
 - 3
 - 4
 - 5
- If the annual incomes of B and C are ₹ 432000 and ₹ 528000, respectively, then what is the difference between the amount spent by them on Transport?
 - ₹ 18496
 - ₹ 18828
 - ₹ 19216
 - ₹ 19488
- If the annual income of each of C and D is ₹ 840000, then what is the sum of the amount spent by C on Rent and that by D on Miscellaneous items?
 - ₹ 288820
 - ₹ 290520
 - ₹ 293160
 - ₹ 295700
- If the amount of money spent on food by C and D is ₹ 144000 and ₹ 172800, respectively, then the annual income of C is _____% of the annual income of D.
 - 47.5
 - 60
 - 62.5
 - 120

- Which of the following are arranged in the order of increasing connotation?
 - Vertebrates, mammals, canine, labradors
 - Mammals, vertebrates, canine, labradors
 - Canine, labradors, mammals, vertebrates
 - Labradors, canine, mammals, vertebrates
- Two researchers obtain similar results while investigating a problem following different methodologies. Their measurements show:
 - Interrater validity
 - Convergent validity
 - Construct validity
 - Test-Retest validity
- Amount of destruction caused by an earthquake is measured by:
 - Richter Scale
 - Intensity Scale
 - Magnitude Scale
 - Mercalli Scale
- The contents of swayamprabha channel - 15 with the theme of 'Capacity Building and Teacher Education' is provided by:
 - CEC, New Delhi
 - IIT Delhi
 - IGNOU, New Delhi
 - IIT Kanpur
- Which of the following statements are logically equivalent?
 - Some non-dogs are non-friendly animals
 - Some dogs are friendly animals
 - Some friendly animals are dogs
 - All dogs are friendly animals

Choose the **correct** answer from the options given below:

 - (B) and (C) Only
 - (B) and (D) Only
 - (A), (B) and (C) Only
 - (A) and (D) Only
- Which of the following are advantages of e-commerce for consumers?
 - They save time by visiting websites instead of stores.
 - They have little risk of having their credit card number intercepted.
 - They can choose goods from any vendor in the world.
 - They can shop no matter their location, time, or conditions.

Choose the correct answer from the options given below :

 - (A) and (D) Only
 - (B) and (C) Only
 - (A), (C) and (D) Only
 - (A), (B), (C) and (D)
- Identify the parametric tests used for statistical analysis.
 - t-test
 - H-test
 - F-test
 - U-test

Choose the **correct** answer from the options given below:

- (1) (A) and (B) Only (2) (B) and (C) Only
(3) (C) and (D) Only (4) (A) and (C) Only

13. The etic approach to communication is _____ in character.

- (1) Restrictive (2) Mechanical
(3) Universal (4) Non-cultural

14. Match **List-I** with **List-II**.

List-I (Authors)		List-II (Concepts)	
A.	Roland Barthes	I.	Doxa
B.	Pierre Bourdieu	II.	Hegemony
C.	Antonio Gramsci	III.	Simulation
D.	Jean Baudrillard	IV.	Myth

Choose the **correct** answer from the options given below:

- (1) (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
(2) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
(3) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)
(4) (A)-(IV), (B)-(I), (C)-(II), (D)-(III)

15. Because of Biochemical Oxygen Demand (BOD), Dissolved Oxygen (DO) of a water body:

- (1) Increases
(2) Decreases
(3) Remains unchanged
(4) Initially increases and then decreases

16. If the selling price of ₹ 276 results in a discount of 8% on the marked price of an item, at what price should the item be sold to offer a discount of 13%?

- (1) ₹ 265 (2) ₹ 251
(3) ₹ 257 (4) ₹ 261

17. Who among the following ancient scholars was a proponent of grammarian tradition?

- (1) Ishwarkrishna (2) Bhartrhari
(3) Gautama (4) Kanada

18. If $(L)_M$ represents a number L in base-M number system, then identify the correct ascending order of the following numbers A-D when converted to decimal number system.

- (A) $(102)_4$
(B) $(10001)_2$
(C) $(103)_6$
(D) $(201)_3$

Choose the **correct** answer from the options given below:

- (1) (B), (A), (C), (D) (2) (A), (C), (D), (B)
(3) (A), (B), (D), (C) (4) (B), (A), (D), (C)

19. The Indian Institute of management, Indore, was set up during:

- (1) Eighth five year plan (2) Ninth five year plan
(3) Tenth five year plan (4) Eleventh five year plan

20. An Internet standard that allows for adding media attachments to an email is called:

- (1) MIME (2) DHCP
(3) HDMI (4) FTP

21. According to Marshal McLuhan, examples of high definition media are:

- (A) Speech
(B) Photograph
(C) Radio
(D) Cinema
(E) Cartoon

Choose the **correct** answer from the options given below:

- (1) (A), (B) and (C) Only
(2) (B), (C) and (D) Only
(3) (C), (D) and (E) Only
(4) (A), (D) and (E) Only

22. Which of the following are consequences of Global Warming?

- (A) Change in Hydrological Cycle
(B) Species Migration
(C) Change in Ocean Circulation
(D) Ocean Acidification
(E) Sea level rise

Choose the **correct** answer from the options given below:

- (1) (A), (B) and (E) Only (2) (A), (C) and (D) Only
(3) (B), (C) and (D) Only (4) (A), (B), (C), (D) and (E)

23. Ferdinand de Saussure's approach to the study of signs is described as:

- (1) Semiology (2) Semantics
(3) Signification (4) Signifying system

24. 7 pumps, working 10 hours a day, can empty a tank in 20 days. How many hours a day must 5 pumps operate to empty the tank in 14 days?

- (1) 20 hours (2) 18 hours
(3) 16 hours (4) 14 hours

25. Mobile games were the first to popularize _____ which uses an image of an actual place or thing and adds digital information to it.

- (1) Virtual Reality
(2) Augmented Reality
(3) Mixed Reality
(4) Computer-Aided Design (CAD)

26. An English teacher asks students to create a multimedia presentation analysing a novel's themes, characters, and literacy devices. Which assessment method is most suitable to check the real time progress of students?

- (1) Authentic Assessment
(2) Summative Assessment
(3) Norm-referenced Assessment
(4) Ipsative Assessment

27. What is the mission of International Solar Alliance?

- (1) Every home no matter how far will have electricity
(2) Every home will harvest solar energy
(3) Every home no matter how far away will have light at home
(4) Every home has to be carbon neutral

28. Match List-I with List-II.

List-I (Malware)		List-II (Definition)	
A.	Ransomware	I.	Software that monitors and/or records the actions of targeted users.
B.	Spyware	II.	A small piece of code that misleads users of its true intent by disguising itself as a legitimate program and infects your computer when you run it.
C.	Worm	III.	Software that locks data files and demands a monetary payment in exchange for unlocking.
D.	Trojan Horses	IV.	A piece of code that replicates itself to other devices without user interaction

Choose the **correct** answer from the options given below:

- (1) (A)-(II), (B)-(I), (C)-(IV), (D)-(III)
- (2) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)
- (3) (A)-(I), (B)-(III), (C)-(II), (D)-(IV)
- (4) (A)-(III), (B)-(I), (C)-(IV), (D)-(II)

29. The union government of India had in 2011 decided to establish a National Institute of Design in the states of:

- (A) Andhra Pradesh
- (B) Kerala
- (C) Assam
- (D) Goa
- (E) Haryana

Choose the **correct** answer from the options given below:

- (1) (A), (B) and (C) Only
- (2) (B), (C) and (D) Only
- (3) (A), (C) and (E) Only
- (4) (D) and (E) Only

30. In a certain coding language, the word 'TRAIN' is coded as 'VPCGP', then the word 'PROUD' will be coded as:

- (1) QSPVE
- (2) RPQSF
- (3) RQPTF
- (4) RQQSE

31. Which of the following arguments is fallacious because of the middle term being too narrow?

- (1) All things are non-eternal because they are knowable
- (2) Sound is eternal, because it is audible
- (3) Fire is cold because it is substance
- (4) Wherever there is fire, there is smoke

32. A marketing instructor wants to engage students by conducting live polls during an online lecture to gather instant feedback on marketing strategies. Which of the following tools should the instructor use for creating and displaying polls?

- (A) Adobe Illustrator
- (B) Slido
- (C) Straw Poll
- (D) Camtasia
- (E) Flipgrid

Choose the **correct** answer from the options given below:

- (1) (A), (B) and (E) Only
- (2) (A) and (D) Only
- (3) (B) and (C) Only
- (4) (C), (D) and (E) Only

33. Find out the correct chronological order of the following:

- (A) First binary computer by Britishers
- (B) Printing press
- (C) Plan for mechanical computer
- (D) Single-screen motion picture exhibition
- (E) First public broadcast of television

Choose the **correct** answer from the options given below:

- (1) (A), (C), (E), (D), (B)
- (2) (B), (C), (D), (E), (A)
- (3) (C), (E), (A), (B), (D)
- (4) (D), (A), (B), (C), (E)

34. Which of the following statements are true regarding contrary propositions?

- (A) They cannot both be true
- (B) They cannot both be false
- (C) They can both be false
- (D) If one is true the other must be false

Choose the **correct** answer from the options given below:

- (1) (B) and (C) Only
- (2) (A), (B) and (C) Only
- (3) (A), (C) and (D) Only
- (4) (D) Only

35. Which of the following is not a disease caused due to exposure of Ultra Violet (UV)-rays, one of the Environmental hazards due to ozone layer depletion?

- (1) Melanoma
- (2) Erythema
- (3) Teratoma
- (4) Carcinoma

36. Which fallacy is committed in the following argument- "Ambassador cars have almost disappeared. This is an ambassador car. Therefore, this car has almost disappeared":

- (1) Equivocation
- (2) Fallacy of Division
- (3) Hasty Generalization
- (4) Slippery Slope

37. Identify the main preoccupations of qualitative researchers.

- (A) Emphasis on process
- (B) Emphasis on generalization
- (C) Emphasis on context
- (D) Emphasis on description

Choose the **correct** answer from the options given below:

- (1) (A), (B) and (C) Only
- (2) (B), (C) and (D) Only
- (3) (A), (B) and (D) Only
- (4) (A), (C) and (D) Only

38. Find out the wrong term from the given series:

125, 126, 124, 127, 123, 129

- (1) 126
- (2) 124
- (3) 123
- (4) 129

39. An IT giant company has its Global Education Centre at:

- (1) Medak
- (2) Ratnagiri
- (3) Mysore
- (4) Agartala

40. Match **List-I** with **List-II**.

List-I (Abbreviations)		List-II (Meaning)	
A.	ante.,	I.	here and there
B.	cf.	II.	and others
C.	et.al.,	III.	compare
D.	passim:	IV.	before

Choose the **correct** answer from the options given below:

- (1) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
 (2) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)
 (3) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
 (4) (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
41. A relationship in which a less-experienced learner acquires knowledge and skills under the guidance of an expert is known as:
 (1) Cloud computing
 (2) Cognitive load
 (3) Cognitive apprenticeship
 (4) Collective monologue
42. The New Education Policy of 2020, suggested degree courses in:
 (A) Development Communication
 (B) Logic
 (C) Art and Museum Administration
 (D) Graphic Design
 (E) Web Design
 Choose the **correct** answer from the options given below:
 (1) (A), (B) and (C) Only (2) (B), (C) and (D) Only
 (3) (C), (D) and (E) Only (4) (B), (D) and (E) Only
43. Identify the non-probability sampling techniques:
 (A) Systematic sampling
 (B) Simple random sampling
 (C) Snowball sampling
 (D) Purposive sampling
 Choose the **correct** answer from the options given below:
 (1) (A) and (B) Only (2) (C) and (D) Only
 (3) (A), (C) and (D) Only (4) (A), (B) and (C) Only
44. Which of the following are the sub-types of long term memory?
 (A) Episodic memory
 (B) Semantic memory
 (C) Procedural memory
 (D) Priming
 (E) Class conditioning effects
 Choose the **correct** answer from the options given below:
 (1) (A), (B), (C), (D) and (E)
 (2) (B), (D) and (E) Only
 (3) (A), (B) and (C) Only
 (4) (C), (D) and (E) Only

45. A sum of money is equally divided among a number of children. Had there been 10 children less, each would have received ₹ 5 more, and had there been 10 children more each would have received ₹ 3 less. What is the sum of money that is distributed?
 (1) 300 (2) 600
 (3) 750 (4) 900

Read the following passage and answer the questions.

Folk traditions provide and create a public space where some broader social values could be generated and observed. The various folk genres through the creation of public space help in bringing and observed. The various folk genres through the creation of public space help in bringing into focus ideas, values and contentions into public discourse, a kind of unshackling of inhibitions in a stress-free manner. The changes that modernity brings in its wake become more socially acceptable and the conflicts that are created find a medium through which they can be resolved. This public space or sphere has many constructive and pleasurable uses. Politics and religion are notable instances in which the creation and sustenance of public space or sphere is very important to achieve some agenda(s). The dynamism ingrained in public space or sphere shows complex nuances and many trends especially when the nature of transformation is being analysed. There seems to be a shift from a simple pleasure orientation to cater to multi-level interests of the performers and patrons. Transformations are influenced by economics, politics and voices of dissent that find various mechanisms of appropriation of public space for their own objectives. They widen the base of debate and discussion transcending the involved units.

46. What is the influence of modernity on folk traditions and public space according to the text?
 (1) Folk traditions are disappearing.
 (2) It has no effect on ancient tradition.
 (3) It only leads to conflicts without resolution.
 (4) It makes social changes more acceptable.
47. What influences the transformations that can be observed in public sphere?
 (1) Multi-level interests of performers and patrons
 (2) A static set of rules
 (3) The absence of economic and philosophical ideas
 (4) Simple pleasure orientation
48. What does folklore contribute to public discourse?
 (1) It creates a public space for stress-free interaction
 (2) It restricts the expression of ideas and values
 (3) It promotes only traditional values
 (4) It eliminates modern influences
49. Public space:
 (1) Widens the base of debate and discussion
 (2) Ignores traditional knowledge system
 (3) Insists more on individual growth
 (4) Leads to suppression of human values
50. Role of folklore in the society is:
 (1) To provide entertainment only
 (2) To generate and observe broader social value
 (3) To restrict public discourse
 (4) To resist social change

SOLUTIONS

1. (2) Amount spent by A on rent per annum = 15% of (12×80000)
 $= ₹ (15 \times 12 \times 800)$

Amount spent by D on clothes per annum = 12% of (12×72000)
 $= ₹ (12 \times 12 \times 720)$

$$\text{Required percentage} = \frac{(15 \times 12 \times 800 - 12 \times 12 \times 720)}{12 \times 12 \times 720} \times 100$$

$$= \frac{(15 \times 10 - 12 \times 9)}{12 \times 9} \times 100 = 38.89\%$$

2. (1) $\frac{41800}{300000} \times 100 = 13.93\%$

From the given table we can see that only B and E have spent more than 13.93% of their income on clothes.

3. (4) Amount spent by B on transport = $\frac{22.6}{100} \times 432000 = ₹97632$

$$\text{Amount spent by C on transport} = \frac{14.8}{100} \times 528000 = ₹78144$$

Required difference = $97632 - 78144 = ₹ 19488$

4. (3) Required sum = $(16.3\% + 18.6\%)$ of 840000
 $= 34.9\%$ of 840000 = $349 \times 840 = ₹ 293160$

5. (3) Annual income of C = $144000 \times \frac{100}{24} = ₹600000$

$$\text{Annual income of D} = 172800 \times \frac{100}{18} = ₹960000$$

$$\text{Required percentage} = \frac{600000}{960000} \times 100 = 62.5\%$$

6. (4) **Connotation** refers to the implied or associated meaning of a word or category, and in this case, it is based on the level of generality or specificity. Starting with the most specific term and moving to the most general term is the correct way to show increasing connotation.

- **Labradors:** This is the most specific term, referring to a particular breed of dog.
- **Canine:** This is a broader term than Labradors, referring to all members of the dog family, which includes many breeds like Labradors, Golden Retrievers, etc.
- **Mammals:** This term is broader than canines, referring to all animals that nurse their young with milk, including dogs, cats, whales, humans, etc.
- **Vertebrates:** This is the broadest term, including all animals with a backbone, such as fish, birds, reptiles, amphibians, and mammals.

Thus, the correct sequence in the order of increasing connotation is (4) **Labradors, canine, mammals, vertebrates**.

7. (2) In this case, the two researchers using different methodologies but obtaining similar results indicates **convergent validity**. It occurs when two different methods or approaches to studying the same concept yield similar results. This suggests that the two methods are measuring the same underlying construct or phenomenon effectively.

- **Interrater validity** relates to the consistency between different individuals (raters) when they are observing or assessing the same thing.
- **Construct validity** refers to how well a test or experiment measures the concept it is intended to measure.
- **Test-retest validity** involves checking the consistency of results when the same test is repeated at different times.

8. (4) The **Mercalli Scale** measures the intensity of an earthquake based on its observed effects and the amount of destruction it causes to buildings, structures, and landscapes. It is a subjective scale that considers human perception and structural damage.

9. (3) The content for **Swayamprabha Channel 15**, which focuses on “**Capacity Building and Teacher Education**”, is provided by **IGNOU (Indira Gandhi National Open University), New Delhi**. IGNOU is a leading institution in providing distance education and has a strong focus on teacher education and capacity-building programs.

10. (1) (A) Some non-dogs are non-friendly animals

This statement says that there are some animals, other than dogs, that are not friendly. It doesn't specifically contradict any other statement but doesn't directly relate to the friendliness of dogs either.

- (B) Some dogs are friendly animals

This statement says that there are some dogs that are friendly, which means not all dogs are necessarily friendly. It partially overlaps with (D) but is weaker because it states “some” dogs, not “all.”

- (C) Some friendly animals are dogs

This statement suggests that there are friendly animals, and some of those friendly animals happen to be dogs. This overlaps with (B) because if some dogs are friendly (B), then some friendly animals are dogs (C).

- (D) All dogs are friendly animals

This is a strong statement that asserts that every single dog is friendly. It is stronger than (B), which only says that “some” dogs are friendly. (D) directly contradicts the possibility of unfriendly dogs implied by (B).

- ∴ (B) and (C) are logically equivalent because they both imply that some dogs are friendly.

11. (3) Advantages of e-commerce for consumers are:

- (A) **They save time by visiting websites instead of stores:** Correct. E-commerce allows consumers to shop from the convenience of their own homes, saving time compared to physically going to stores.

(C) **They can choose goods from any vendor in the world:** Correct. E-commerce allows consumers to buy products from international vendors, expanding their purchasing options beyond geographical limitations.

(D) **They can shop no matter their location, time, or conditions:** Correct. E-commerce enables consumers to shop online 24/7, regardless of their physical location or external conditions like weather or time of day.

12. (4) The parametric tests are t-test and F-test,

- **t-test:** A parametric test used to compare the means of two groups. It assumes that the data follows a normal distribution.
- **F-test:** A parametric test used to compare the variances of two or more groups, often used in ANOVA (Analysis of Variance).

13. (3) The **etic approach** in communication or anthropology refers to the study of human behavior from an external, objective, and universal perspective. It focuses on the similarities across cultures and looks for universal principles that can be applied to all human societies, regardless of cultural differences.

14. (4) The correct Match is (4) (A)-(IV), (B)-(I), (C)-(II), (D)-(III).

Roland Barthes – Myth: Barthes' book "*Mythologies*" examines how myths are created and perpetuated in society through language, symbols, and narratives, making this a correct match.

Pierre Bourdieu – Doxa: Bourdieu's concept of "*doxa*" refers to the set of fundamental, unquestioned beliefs that exist in any given society, aligning well with this match.

Antonio Gramsci – Hegemony: Gramsci introduced the concept of "*hegemony*", which explains how a dominant group can control society ideologically without the use of force, ensuring the match here is correct.

Jean Baudrillard – Simulation: Baudrillard's concept of "*simulation*" refers to the process where reality is replaced by representations of reality (simulacra), which fits well with this match.

15. (2) **Biochemical Oxygen Demand (BOD)** refers to the amount of dissolved oxygen needed by aerobic organisms to break down organic material present in a water body. When the **BOD** is high, it indicates a high level of organic pollution. As microorganisms work to decompose this organic material, they consume more dissolved oxygen (DO) from the water. As a result, the **Dissolved Oxygen (DO)** in the water body decreases.

16. (4) $(100 - 8)\%$ of M.P. = ₹276

$$\Rightarrow \text{M.P.} = 276 \times \frac{100}{92} = ₹300$$

$$\begin{aligned} \text{Required S.P.} &= (100 - 13)\% \text{ of } 300 = 87\% \text{ of } 300 \\ &= 87 \times 3 = ₹261 \end{aligned}$$

17. (2) **Bharthari** was a renowned ancient Indian philosopher and grammarian. He is best known for his work in the field of language and grammar, particularly his contribution to the **Vākyapadiya**, a major work on Sanskrit grammar and the philosophy of language.

The other scholars mentioned:

- **Ishwar krishna:** Associated with the Sankhya philosophy.
- **Gautama:** Founder of Nyaya philosophy.
- **Kanada:** Founder of the Vaisheshika school of philosophy.

18. (4) (A) $(102)_4$ in base 4:

$$102_4 = 1 \times 4^2 + 0 \times 4^1 + 2 \times 4^0 = 1 \times 16 + 0 + 2 = 18$$

(B) $(10001)_2$ in base 2:

$$10001_2 = 1 \times 2^4 + 0 \times 2^3 + 0 \times 2^2 + 0 \times 2^1 + 1 \times 2^0 = 16 + 1 = 17$$

(C) $(103)_6$ in base 6:

$$103_6 = 1 \times 6^2 + 0 \times 6^1 + 3 \times 6^0 = 36 + 0 + 3 = 39$$

(D) $(201)_3$ in base 3:

$$201_3 = 2 \times 3^2 + 0 \times 3^1 + 1 \times 3^0 = 18 + 0 + 1 = 19$$

The correct ascending order is (B), (A), (D), (C).

19. (2) The Indian Institute of Management (IIM) Indore was established in 1996 during the **Ninth Five-Year Plan** (1997–2002). It was set up as part of the Indian government's initiative to expand the IIM system for providing high-quality management education in India.

20. (1) MIME is an Internet standard that extends the format of email to support text in character sets other than ASCII, as well as attachments such as audio, video, images, and application programs. It allows email clients to send and receive media attachments like photos, videos, or documents.

21. (2) According to Marshall McLuhan's classification of media into low-definition and high-definition types:

1. **Photograph (B):** High-definition media because it delivers detailed, clear, and specific information without needing much interpretation.
2. **Radio (C):** High-definition media as it provides clear auditory information that requires less audience engagement to understand.
3. **Cinema (D):** High-definition media because it is rich in visual and auditory detail, offering a clear and immersive experience.

22. (4) All the given options are valid consequences of global warming:

1. **Change in Hydrological Cycle (A):** Global warming alters the water cycle, influencing rainfall patterns, river flows, and evaporation rates.
2. **Species Migration (B):** Many species are shifting their habitats due to changing climate conditions in search of favorable environments.
3. **Change in Ocean Circulation (C):** Warming can disrupt ocean currents, which influence global climate and marine ecosystems.
4. **Ocean Acidification (D):** Increased CO₂ absorption by the oceans leads to acidification, which harms marine life.
5. **Sea Level Rise (E):** Melting ice caps and the thermal expansion of water due to higher temperatures contribute to rising sea levels, threatening coastal areas.

23. (1) Ferdinand de Saussure, a Swiss linguist, is often considered the father of modern linguistics and semiotics. His approach to the study of signs is called **semiology** (from the Greek word "semeion," meaning "sign"). Semiology is the study of signs and symbols as elements of communicative behavior, exploring how meaning is constructed through language.

24. (1) Let the required number of hour per day be x .
Using, $M_1 \times D_1 \times H_1 = M_2 \times D_2 \times H_2$
 $7 \times 10 \times 20 = 5 \times 14 \times x$
 $\Rightarrow x = 20$
25. (2) Augmented Reality (AR) is a technology that overlays digital information on top of the real-world environment. Mobile games, such as "Pokémon GO," were among the first to popularize AR, where players interact with real-world environments and see digital elements superimposed onto them.
26. (1) **Authentic assessment** refers to evaluating students through tasks that represent real-world challenges and require the application of skills and knowledge in practical contexts. A multimedia presentation that analyzes a novel's themes, characters, and literary devices would be an example of an authentic assessment because it involves creativity, analysis, and synthesis of information, similar to real-world tasks.
27. (3) The mission of the **International Solar Alliance (ISA)** is: **Every home no matter how far away will have light at home.** This reflects the ISA's mission to facilitate energy access to remote areas through solar power, promoting solar energy use in order to ensure energy sustainability.
28. (4) (A)-(III), (B)-(I), (C)-(IV), (D)-(II)
29. (3) The union government of India had decided to establish National Institutes of Design (NID) in the states of Andhra Pradesh, Assam, and Haryana.
This decision was made to expand design education and innovation, further promoting creativity and design-thinking across different regions of the country.
30. (2) As, T R A I N
↓ +2 ↓ -2 ↓ +2 ↓ -2 ↓ +2
V P C G P
Similarly, P R O U D
↓ +2 ↓ -2 ↓ +2 ↓ -2 ↓ +2
R P Q S F
∴ 'P R O U D' is coded as 'R P Q S F'
31. (2) The sound is eternal because it is audible - This argument is fallacious because the middle term, "audible," is too narrow to establish the eternality of sound. Just because something is audible doesn't make it eternal, which is a logical flaw in reasoning.
32. (3) **Slido (B)** and **Straw Poll (C)** are well-known platforms used for creating and displaying live polls during online interactions, including marketing lectures or other educational sessions.
Adobe Illustrator (A), **Camtasia (D)**, and **Flipgrid (E)**, while valuable for other purposes like design, video creation, or video-based discussions, are not typically used for live polling.
33. (2) The correct chronological order of the given events is as follows:
(B) Printing press (15th century)
(C) Plan for mechanical computer (Charles Babbage in 1822)
(E) First public broadcast of television (1926)

- (A) First binary computer by Britishers (1943 - Colossus Computer)
(D) Single-screen motion picture exhibition (late 19th century)
34. (3) Contrary propositions are two propositions that cannot both be true but can both be false.
(A) They cannot both be true
True: This is the defining characteristic of contrary propositions. They cannot both be true simultaneously.
(B) They cannot both be false
False: Contrary propositions can both be false.
(C) They can both be false
True: As mentioned, contrary propositions can both be false.
(D) If one is true, the other must be false
True: If one contrary proposition is true, the other must be false because they cannot both be true.
The correct statements are (A), (C), and (D).
35. (3) **Teratoma**, however, is a type of tumor that originates from germ cells and is not associated with UV radiation or ozone layer depletion. It is typically a congenital tumor that contains various types of tissues like hair, muscle, and bone, and is unrelated to UV exposure.
36. (2) "Ambassador cars have almost disappeared. This is an ambassador car. Therefore, this car has almost disappeared." : This argument takes a general statement about all ambassador cars (that they have almost disappeared) and applies it to one specific car. The reasoning assumes that because the group (ambassador cars) is almost gone, the specific car in question has almost disappeared as well.
This type of reasoning falls under the Fallacy of Division, where a general statement about a group is incorrectly applied to an individual member of that group.
37. (4) Qualitative researchers are typically focused on processes, context, and description. These are key preoccupations in qualitative research as it aims to understand the depth and complexity of human experiences, rather than generalizing findings (which is more characteristic of quantitative research).
(A) **Emphasis on process:** important in understanding how things unfold in qualitative research.
(C) **Emphasis on context:** essential for considering the environment or situation where the phenomenon occurs.
(D) **Emphasis on description:** critical for deeply describing the observations made during research.
38. (4) The pattern of the series is:
125 126 124 127 123 129
 +1 -2 +3 -4 +5
So, the wrong term is 129.
39. (3) The Global Education Centre (GEC) of Infosys, a major IT company, is located in Mysore, Karnataka. It is one of the largest corporate education centres in the world and provides extensive training to employees.
40. (1) (A) - (IV) (B) - (III), (C) - (II) (D) - (I)

41. (3) Cognitive apprenticeship refers to the relationship where a learner, typically less experienced, learns by working under the guidance of an expert. The expert models the task and supports the learner as they gradually take on more responsibility, developing their knowledge and skills over time. This is similar to traditional apprenticeships but focuses more on cognitive skills and thought processes.

42. (3) The New Education Policy of 2020 suggests degree courses in emerging fields such as **Graphic Design, Web Design, and Art and Museum Administration**. These fields are directly aligned with the objectives of modern education and skills development.

43. (2) **Snowball sampling** and **Purposive sampling** are **non-probability** sampling techniques.

Snowball sampling is used when the subjects are difficult to locate, and it relies on referrals from initial subjects to generate additional participants.

Purposive sampling involves selecting specific individuals who are expected to offer the most relevant data.

44. (1) The sub-types of long-term memory are: (A), (B), (C), (D), and (E).

- **Episodic memory (A):** This is a type of long-term memory that involves the recollection of personal experiences or events.
- **Semantic memory (B):** This involves general world knowledge, such as facts and concepts.
- **Procedural memory (C):** This is memory for how to perform tasks or skills (e.g., riding a bike).
- **Priming (D):** Priming refers to an implicit memory effect in which exposure to one stimulus influences a response to another.
- **Class conditioning effects (E):** Though not commonly categorized with other memory types, class conditioning (often related to Pavlovian conditioning) involves forming associations between stimuli, which is also a form of learned memory.

45. (2) Let the sum of money be x and the number of children be y . According to question

$$\frac{x}{y-10} = \frac{x}{y} + 5 \quad \dots (i)$$

$$\frac{x}{y+10} = \frac{x}{y} - 3 \quad \dots (ii)$$

$$\text{From (i), } \frac{x}{y-10} - \frac{x}{y} = 5$$

$$\Rightarrow \frac{1}{y-10} - \frac{1}{y} = \frac{5}{x}$$

$$\Rightarrow \frac{10}{y(y-10)} = \frac{5}{x}$$

$$\Rightarrow x = \frac{y(y-10)}{2}$$

Putting value of x in (ii), we get

$$\frac{y(y-10)}{2(y+10)} = \frac{y(y-10)}{2y} - 3$$

$$\Rightarrow y^2 - 10y = y^2 - 100 - 6y - 60$$

$$\Rightarrow 4y = 160 \Rightarrow y = 40$$

$$\text{So, } x = \frac{40 \times (40-10)}{2} = 600$$

46. (4) The passage mentions that the changes brought by modernity become more socially acceptable and conflicts find a medium for resolution through folk traditions and public space. Modernity influences the acceptance of new social values.

47. (1) The passage explains that there is a shift from a simple pleasure orientation to cater to the multilevel interests of performers and patrons, influenced by factors such as economics, politics, and dissenting voices.

48. (1) The passage describes how folk genres create public spaces that allow stress-free interaction and bring ideas, values, and contentions into public discourse.

49. (1) The passage highlights that public space helps to widen the base of debate and discussion, transcending individual units and providing a platform for diverse ideas and perspectives.

50. (2) The passage states that folk traditions provide and create a public space where broader social values can be generated and observed, contributing to societal discourse and social values beyond just entertainment.

- Dec 2014 Session - 1 Paper
- Dec 2013 Session - 1 Paper
- Dec 2012 Session - 1 Paper
- June 2011 Session - 1 Paper
- June 2010 Session - 1 Paper
- Dec 2009 Session - 1 Paper

KEY FEATURES

- ✓ **Latest Pattern Practice:** Prepare for the latest exam format by studying 52 shift papers from the last 10 sessions since June 2019 along with 14 Papers between 2009-2018, ensuring you're familiar with the latest trends and patterns in the exam.
- ✓ **Verified Solutions:** Access detailed and verified solutions for each question, aiding in your understanding of concepts and helping you learn from your mistakes effectively.
- ✓ **Updated Content:** Stay abreast of the latest developments in ICT, environmental studies, and policy changes relevant to your exam, ensuring your knowledge is up-to-date and aligned with current trends.
- ✓ **Clear Presentation:** Easily grasp complex concepts through clear and understandable theory presented alongside tables and graphs, facilitating comprehension and retention of key information.
- ✓ **Weightage Guidance:** Identify the importance of each topic within the syllabus, enabling you to prioritize your study efforts effectively and focus on areas with higher weightage for better exam preparation.
